

The Head Master

Nhowe High School

Box G04

Macheke

Dear : Sir

Ref : Quarry stoves used by Jobfin during construction of the Palisade fence

It has been established that **48** wheel barrows were used equivalent to **4** cubics of stones . We can pay them back by cash calculated at **\$34** per cubic or we can organise local delivery of the some. The other option is to install **5** solars street light at strategic points of your choice .

Kindly advise accordingly , meanwhile would you please make the payment for the remaining **\$545.800** to enable us to complete the gates and paint works.

Thank you for doing business with us .

Yours Faithful

Cyprian Mudoti
